Good Morning [REDACTED]

I can confirm that;

1. No licences and/or permits are required in respect of contaminated land/works that may disturb asbestos;
2. MCC have reviewed the methodology and risk assessments of the site investigation works; and
3. MCC are happy for you to proceed with the site investigation works as set out the methodology.

Based on the risk assessments and procedures in place by E3P the risks from asbestos on this site during the site investigation works are deemed to be low.

Kind Regards

Laura

Please note that due to working compressed hours Wednesdays are a non-working day for me, I will respond to your email when I return to the office
